📁 [muhammadmuzammalportfolio](#)

Smart and analytical Front-End Web Developer with 1.5 year of experience, proficient in React.js, Bootstrap, Material UI, Vanilla JS, HTML, and CSS. Quick learner, actively seeking challenges to enhance skills as a full-stack web developer. Eager to contribute technical expertise and professional growth to a dynamic team.

Experience

Power Information Technology Company

● Frontend Developer

Nov , 2022 - present

- Analysed client requirements and developed software solutions using JavaScript, HTML, React, CSS, and Material UI.
- Designed and developed responsive user interfaces compatible across multiple screen resolutions and browsers.
- Maintained and supported software solutions, ensuring seamless integration with other systems.
- Wrote clean, maintainable, and modular code following best software development practices.

Projects

● MEPCO Smart - Web Portal

Technologies : React.js, Material UI, SCSS ,Typescript

- Developed a web interface for Power Sector Improvement Activities (PSIA), providing smart monitoring features such as load profile, power outage information, consumption trends, and payment trends for power consumers.
- The platform employs Highcharts.js for showcasing dynamic and interactive graphs, while seamlessly integrating Formik and Yup to facilitate the hassle-free submission of requests for a range of power services. These services include applying for new connections, making attribute changes, requesting meter replacements, extending due dates, and more.

● E-Operations - Web Portal

Technologies : React.js, Material UI, SCSS ,Javascript, JS pdf

- Role-based interface for field operations connected with MEPCO Smart.
- Integrated with CCMS and Billing through APIs, featuring an interactive dashboard and E-File for comprehensive digital document tracking.

● Citizen Monitor - Web Portal

Technologies : React.js, Material UI, TanStack Table, SCSS ,Javascript

- Citizen Monitor displaying hierarchical dashboard stats of theft cases during the anti-theft campaign by the Ministry of Energy, Power Division of Pakistan.

● OutFit - WebSite

Technologies : React.js, Redux , CSS ,Chakra UI

- Lifestyle is your go-to for the latest fashion trends! As part of a leading retail group, we offer a wide array of apparel, footwear, accessories, and beauty products for everyone in the family, all in one convenient location.

● Admin Panel - Practice

Technologies : React.js, Material UI, TanStack Table, SCSS, Javascript

- Crafted from the ground up, this admin panel boasts a vibrant dashboard page. With React hooks, apexcharts, motion-framer, and modern CSS, it's a dynamic hub for key business metrics like sales, revenue, and expenses.
- Dive deeper with interactive charts and tables detailing order statuses and customer reviews, all wrapped in a sleek, user-friendly design.
